

Healing Dialogue and Action's presentation of

# OUR COMMUNITY HEALING MODEL

The presentation will help frame a discussion around the need to prioritize the healing of communities of color from generational trauma of systemic racism. HDA's Community Healing Model is based on the personal experiences of those who have been most affected by violence and the criminal justice system. Join us to learn more about our Community Healing Model and hear directly from some of these wounded healers as we work to co-create restorative approaches to harm grounded in equity that center the voices of those directly impacted by violence and offer the kind of healing communities of color deserve.
